

## **Analyst Mid- Supply Chain Risk Management**

**Location: Quantico Virginia**

**Job Summary:** Supply Chain Risk Management (SCRM) involves the research, analysis, and production of all-source intelligence products in response to DoD's acquisition community requests for information on supply chain threats. SCRM Threat Analyst Center (TAC) personnel will primarily develop specific assessments of threats to the supply chain of DoD suppliers, contractors, and subcontractors. Such analysis would be greatly enhanced by having access to strategic-level analysis of Foreign Intelligence Entities (FIEs).

### **Responsibilities:**

- Research, review, edit, plan, prepare, integrate, and publish all-source products, CI studies, plans, and/or products for the Agency, the DoD, and national and international intelligence publications and organizations, ensuring compliance with DIA and IC standards for finished intelligence production.
- Plan, direct, and present reports and assessments (articles, papers, studies, briefings, and other media) focused on foreign intelligence services and entities activities, primarily occurring in or emanating from specific functional or regional areas.

### **Requirements:**

- Bachelor's Degree or higher and 5-7 years of cumulative experience in intelligence analysis and a combination of two or more of the following fields: SCRM and threat analysis, Cybersecurity, Law Enforcement, CI, Manufacturing, Finance, or Business analysis.
- Experience in researching, reviewing, editing, planning, preparing, integrating, and publishing all-source threat assessments, CI studies, plans, and/or products in order to contribute to or product all-source intelligence for the Agency, the DoD, and national and international intelligence publications and organizations.
