

Junior Counter-Terrorism Analyst

Location: Reston, VA

Scope: Research and produce all-source terrorism national military intelligence studies and products. Conduct research and analysis of all-source data, populate databases and disseminate a broad array of intelligence products. Produce intelligence products on terrorist tactics and operational capabilities to include internal security, organizational facilities, and personalities involved in terrorism tactics, techniques, and procedures (TTP) to include threats, intentions, capabilities, modus operandi, and environment to support national-level counterterrorism planning and operational missions.

Responsibilities:

- Produces concise tactical and strategic counter terrorism assessments for key decision makers using unevaluated intelligence.
- Utilizes a variety of analytical principles, concepts and methodologies to produce all-source intelligence products and target development packages
- Produces all-source intelligence products on transnational terrorism
- Provides analysis and research for industry, infrastructure, technology, country, geographic area, biographic and targeted vulnerability.
- Prepares assessments of current events based on the sophisticated collection, research and analysis of classified/unclassified and open source information.
- Develops and maintains analytical procedures to meet changing requirements and ensure maximum operations.
- Collects data using a combination of standard intelligence methods and business processes. Blends single-source intelligence reports with all-source data to provide a comprehensive picture.

Requirements:

- 1 year of Counter Intelligence experience required.
- Former military or law enforcement preferred.
- HS diploma or GED required.
- Candidates are required to have a TS/SCI upon start date.
